5 NIGHT/6 DAY PACKAGE

The best diving at Ibo is at the light house. It is a long wall dive that covers an area of 1 square km. Starting at 7m of depth there are large gardens of coral tables, soft corals, bucket corals, green tree corals and at the wall side it falls away to a coral bottom at 21m where divers are likely to see a good range of tropical fish.

You may also be lucky enough to see a pod of dolphins on the dive and often on the way to and from the dive site by boat.

Other dive sites that can be easily accessed from Ibo Island are at the southern tip of Matemo Island, (which is the island north of Ibo, in the Quirimbas Archipelago) and these sites also include Kingfish Alley and some fantastic shallow dives at the 19th century coal steamer wreck just north of the sandbank beach.

Our diving combo packages offer you great value for money whilst staying at Ibo Island Lodge.
